

① INFORMATION FOR POSTER PRESENTERS

Poster Panel Size

Please refer to this visualisation of the poster panels to be used during the conference. *The display area for each poster on the panel of the poster board is 85 centimeter wide X 110 centimeter high.*

This area will be allocated for each poster. Please ensure that your poster does not exceed this size. **It is recommended that you leave a margin of at least 3 inches (7.5 cm) around the poster.** When preparing your poster and considering how much of your display will be visible at eye-level, please bear in mind that panels will be mounted on stands.

Please note that there will be 2 posters on each side (front & back) of the poster board. Please do not exceed the given dimensions while you print your poster

Poster Panel Allocation

A numbered panel will be allocated for each poster (separate from the abstract number you have been assigned) and staff will be on hand at the conference to provide your poster panel number.

Please ensure that you stand by your poster(s) during your session for discussion and questions.

Poster Session	Display Poster From	Presenting Time	Remove Poster before
Poster Viewing Session 1	08:30 on Tuesday 22 May	16:45-18:15 Tuesday 22 May	14:00 on Wednesday 23 May
Poster Viewing Session 2	08:30 on Thursday 24 May	18:00-19:30 Thursday 24 May	18:00 on Friday 25 May

Fixing

Push Pins can be used to fix the poster to the poster boards. Please ensure that you bring a sufficient amount of fixing materials with you to fix your poster.

GENERAL GUIDELINES FOR POSTER PRODUCTION

A poster should be self-contained and self-explanatory, allowing different viewers to proceed on their own while the author is free to supplement or discuss particular points raised in inquiry. Presentations should be kept simple and clear and a mixture of text and graphics is recommended. Remember that the viewer, not the author, as in the case of slide presentations, determines the time spent at each poster.

Poster Layout

Materials should be mounted on coloured poster paper or board. Use matt finish rather than glossy paper. Arrange materials in columns rather than rows. It is easier for viewers to scan a poster by moving along it rather than by zigzagging back and forth in front of it. An introduction should be placed at the upper left and a conclusion at the lower right. The abstract does not need to be presented.

Illustrations

Figures should be designed to be viewed from a distance and should use clear, visible graphics and large type. Each figure or table should have a heading of one or two lines. Additional essential information should be provided below in a legend. Photographs should have good contrast, sharp focus and, if necessary, an indication of scale.

Text

Minimise narrative. Use large type in short, separated paragraphs. Numbered or bulleted lists are effective ways to convey a series of points. Do not set entire paragraphs in uppercase or boldface type.

Titles and Fonts

Titles and captions should be short and easy to read, in a sans serif font for preference. Use large lettering as this means a number of people can read the poster from a distance without overcrowding. Remember to caption your poster with the abstract title, authors names and affiliations.

**Headings should be a
minimum of
50 point size**

**Whereas, 25 point size
is suitable for text**
